

eGovINTEROP'07

eGovernment Interoperability Campus 2007

10-11 October 2007

Cité Internationale Universitaire of Paris

www.egovinterop.eu

Identity sheet

Language: English

Where: Cité Internationale Universitaire de Paris

Dates: 10 and 11 October 2007

Organised by: Conviction, Business Flow Consulting

General presentation:

The main aim of this third European edition is to create a forum for discussion between the research community, technology players and public institutions: **22 European countries will participate.**

For 2 days, presentations will focus on all aspects of interoperability in e-Government, both from technical as well as from semantic, organisational and socio-economic perspectives, and will discuss the progress of the various European initiatives in the field. The focus will be on both applied work and theoretical advances.

Why attend eGovINTEROP'07:

Share experiences and points of view with Academics and Researchers from 22 european countries and master the stakes in the eGovernment interoperability.

This campus is supported by:

Official partners: European Commission, IDABC - Pan European eGovernment Services, Terregov, eris@ - The European Regional Information Society Association, e-Forum, R4eGov, Information Society Technologies, the French Ministry of Budget, Public Accounts and Civil Service.

Premium partners: Axway, Microsoft

Issues and fundamental questions which will be discussed:
