Uncovering innovation in
dermatology,
plastic surgery
& aging science

PRELIMINARY PROGRAM

Uncover the abundance of new technology & emerging science in Brazil

For this inaugural edition, IMCAS Americas 2024 will venture to one of the world's leading contributors for dermatology and plastic surgery to provide modern insights and clinical experiences from Brazil's cutting-edge methods and research.

Discover the wonders and updates of the aesthetic market worldwide, both in technical proficiency and the region's upcoming products, to improve your practical awareness and skillset. From state-of-the-art body contouring techniques to transformative cutaneous treatments, unlock the secrets to flawless outcomes to offer top quality care and results within your own clinical work.

We expect a remarkable collection of world-renowned experts and are thrilled to continue our mission to transform specialty medicine through outstanding education, community, and the latest regional innovation. Join us to embark on a revolutionary, 3-day event to explore the latest medical advancements of dermatology, plastic surgery, and aging science!

With great anticipation,

The IMCAS Scientific Board

 - residents in surgery
- Partial-access badges grant entrance to:
 - exhibition
 - sponsored sessions

IMCAS is a congress created by physicians, for physicians. Access to the congress and sessions is subject to a number of regulations that aim to guarantee the scientific independence of the congresses and preserve it from any commercial bias or influence. A precise badge policy has been implemented specifying the rules of admittance to the different areas of the congress, complying with the criteria required by the CME accreditation council and partnering scientific societies.

According to each badge type a full or partial access is issued (after verification of required supporting documents). Therefore, in respect of the local policies towards medical aesthetic treatments, admittance to the congress is restricted to physicians (MD & Residents in medicine) and industry representatives. IMCAS is authorized to take measures which may lead to the withdrawal of the badge and the denial of access to the event if the badge policy is violated.
